Raising the Standard™

Our Story

Since 1938, Cincinnati Surgical has been recognized as an industry leader for manufacturing high quality surgical blades, scalpels, safety products, and operating room accessories. Our manufacturing heritage in the United States (1938-1961) and Sheffield, England (1962-Present) has now come under one roof in Sheffield through a historic joint manufacturing agreement with Swann-Morton. By combining our manufacturing capabilities we are able to offer our customers the following:

- Increased range of products with continued focus on design and innovation
- In-House design and build of our own specialized machinery
- ISO 13485 Certification & In-House Sterilization
- ISO 14001 Environmental Manufacturing Standards Certification
- ISO 50001 Energy Management
- Increased capacity, production capabilities, and visual quality product inspection
- Superior customer service with same day shipping

Our Portfolio

Each brand offered has its own unique shape, size, and material composition due to historical design and manufacturing processes. There are also additional differences in the available features as laid out below and throughout this catalog.

Swann-Morton®

- 200% Visual Inspection
- Packaged with VCI Paper to protect the blade from corrosion
- Strongest/Smallest Foil Package available
- Narrow Grinding Angle resulting in increased initial keenness
- High Surface Finish
- Extended Range
- CE Mark

Cincinnati Surgical

- 200% Visual Inspection
- Packaged with VCI Paper to protect the blade from corrosion
- Strong Foil Packaging
- Narrow Grinding Angle resulting in increased initial keenness
- Medium Surface Finish
- Standard Range

Lance®

- 100% Visual Inspection
- Wide Grinding Angle resulting in high durability
- Low Surface Finish
- Limited Range
- CE Mark

Lance products enjoy a reputation of long lasting cutting edges. Processed from British “cold rolled” steel which is superior in tolerance, concentricity, and straightness allowing for wider grinding angles.

Product Features:

- 100% Visual Inspection
- Wide Grinding Angle resulting in high durability
- Low Surface Finish
- Limited Range
- CE Mark
